my.snapon.com

Exclusive access to SureTrack®, providing Real Fixes and verified parts replacement records from millions of successful repair orders**

High-performance software that boots up in less than 10 seconds, providing results in as little as 30 seconds**

Allows you to handle new OEM technologies like TPMS, Electric Steering, Safety Systems and Hybrid Power Systems

Powerful bi-directional control features at your fingertips while viewing live data for “cause and effect” diagnostics

OEM-specific coverage for 100 vehicle systems and 49 OEMs (with European coverage option) lets you keep work in-house

Auto-ID means vehicles will identify themselves to the scan tool automatically, saving time and eliminating entry errors

One-Touch Code Scan assures a quick and complete health check in about 10 seconds, scanning all available systems for trouble codes

One-Touch Code Clear lets you clear codes in all available systems with one simple touch, saving you time and preventing comebacks

Convenient subscription-based access to the most comprehensive software available for Asian, European and domestic vehicles

Exclusive Fast-Track® Guided Component Tests** show how to test, where to connect and what results to look for

Comprehensive support programs, including a Customer Care hotline, extended warranty, online Training Solutions® and long-term software upgrades

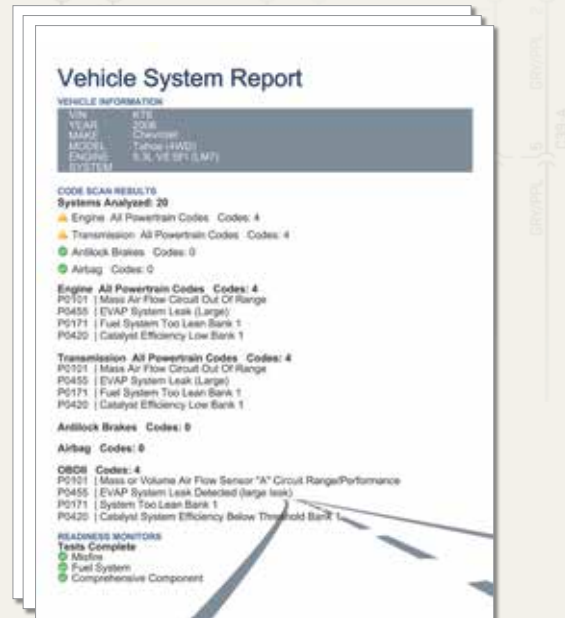

** Eligible platforms only. See the Interactive Vehicle Application Guide for details at diagnostics.snapon.com/17.2

Exclusive quick access to common procedures, like TSBs, new oil specs and service interval resets

Read the VIN automatically upon connection to the vehicle with Instant ID for 2005 and newer models

New Vehicle System Report, 2005 and newer Vehicles; see results for all available systems plus Global OBD-II codes and Readiness Monitors for a more complete view of vehicle systems. The Vehicle System Report may be printed in an attractive format as a customer takeaway

	SOLUS Edge	MODIS Edge	VERUS Edge
Instant ID (most 2005 and Newer)	X	X	X
Oil Change Specs and Service Resets		X	X
Vehicle System Report		X	X
Exclusive TSBs, Campaigns and Recalls			X

Vehicle Software Coverage and Smart Vehicle Interface
P/N EAK0347L01A
List Price \$695

Offer diagnostics coverage for Harley-Davidson motorcycles compatible with Snap-on diagnostic platforms with Upgrade 17.2. Platforms include: VERUS® Family, VERDICT®, MODIS™ Ultra, MODIS Edge, SOLUS Ultra®, SOLUS™ Edge, ETHOS® Plus, ETHOS Tech, ETHOS PRO.

Deliver comprehensive coverage for all major systems on 2000-newer motorcycles, including: Engine, ABS, Hands-free, Security, Turn signal, Hand control module, Body controls, Instrument, Speedometer, Tachometer.

The Smart Vehicle Interface includes both Harley-Davidson adapters in one, and provides secure activation for scan tool software. A handy support hook helps keep the Smart Interface safe from hot pipes and moving parts.

Read and clear OEM-specific fault codes. Perform One-Touch Code Scan for all available systems. Display live data in digital and graphing views. Perform powerful functional tests.

Control vehicle systems and verify component operation with a wide range of functional tests, including: Throttle Position Test, Cruise Control Diagnostics, Idle Speed Adjust, Bleed Brakes, ABS Actuation, Fuel Pump, Turn Signals, Horn, Reset PIN, Reprogram Key FOBs, Alarm, Side Car Configuration, Dash Lights and LCD Segments, Speedometer, Tachometer.

Customers Who Are Interested in This Coverage

- Harley-Davidson specialty shops
- Technicians who do motorcycle side jobs
- Any technician who owns a Harley-Davidson

SureTrack®: The Fastest Path to Fixed.

Expert information integrated in all VERUS family, VERDICT family and MODIS family products and SOLUS Edge, with the latest Snap-on® Software Upgrade. Simply connect the diagnostic tool to Wi-Fi to get Real Fixes and verified parts replacement records harvested from millions of actual repair orders.

How to Get SureTrack?

The following platforms receive SureTrack access upon purchase or software upgrade.

Platform	Access Information	Access Method
VERUS Family and VERDICT	Receive 6-months vehicle content and community access. Use authorization code on purchase receipt for access	Platform or browser (code required for browser access)
MODIS Family and SOLUS Edge	6-month access No authorization code required	Platform only

Expert information that can help any tech, regardless of experience level:

- Verified parts replacement records showing successful fixes
- Expert information hot-linked directly from diagnostic trouble codes
- Exclusive insight based on experience from millions of repair orders
- Vehicle-specific fixes based on symptoms, codes and mileage
- Definitive, reliable answers, validated by SureTrack expert technicians

Snap-on offers peace of mind and protection for some of your most valued business assets - your Snap-on diagnostic tools. Snap-on is proud to offer this comprehensive and flexible extended warranty coverage for the VERUS®, MODIS™, SOLUS™, ETHOS® and Vantage® families of products for an additional 12, 24 or 36 months¹¹ – it's your choice.

Here are some key reasons why the Extended Warranty Program is right for you:

- Coverage as comprehensive as your original factory warranty
- Continuous protection for pennies a day
- Flexible financing available
- Protection against future parts and labor cost increases
- Increased resale value
- Can pay for itself in cost savings with just one repair
- Offered directly through your Snap-on representative
- Provides years of worry-free use
- You choose the length of coverage (12, 24, or 36 months¹¹)
- Genuine Snap-on service parts and expert service technicians
- Complimentary shipping and handling

The Snap-on Extended Warranty Program is available through the same reliable and trusted source you turn to for your diagnostic business needs - your local Snap-on representative. Your representative can provide the most comprehensive extended warranty in the business that offers the same complete coverage as the original warranty. Whether you choose 12, 24 or the 36 month extension, this comprehensive protection remains the same!

¹¹ Extended Warranty Program available with new diagnostic tool purchases as well as any diagnostic tool while under its original Snap-on warranty.

**VERUS, VERDICT, VERUS Wireless,
VERUS PRO, VERUS Edge**

1. **Communication or Software Challenge?** Disconnect the scanner or wireless scan module from vehicle and restart the diagnostic suite.
2. **Other Communication Issues?** Try second Data Cable, OBD-II Adapter, if applicable. Verify the power LED on the Data Cable is illuminated (does not apply to VERUS as it doesn't contain a voltage sensing LED). Verify vehicle has 12 volt and ground at the correct pin locations (pin #4 is ground and pin #16 is 12 volt on standard 16-pin OBD-II style connectors).
3. **Coverage Verification?** Check the software version on the tool and refer to the Interactive Vehicle Application Guide to verify coverage support of vehicle and system.
4. **General Performance Issues?** Check for viruses at Snap4help.com/virus (except VERUS Edge).
5. **Wireless Scanner Calling for Keys?** Verify the wireless scan module is Bluetooth® paired to the scanner.

SOLUS PRO

1. **ScanBay™ Not Communicating with Scanner?** Unplug the device, close down ScanBay and Chrome, plug the device into a different USB port, and relaunch Chrome and ScanBay.
2. **Platform or Software Challenge?** Disconnect from vehicle and reboot the unit.
3. **Other Communication Issues?** Try second Data Cable and OBD-II Adapter. Verify vehicle has 12 volt and ground at the correct pin locations (pin #4 is ground and pin #16 is 12 volt on standard 16-pin OBD-II style connectors).
4. **Coverage Verification?** Check the software version on the tool and refer to the Interactive Vehicle Application Guide to verify coverage support of vehicle and system.

**MODIS Edge, MODIS Ultra, SOLUS Edge, SOLUS Ultra,
ETHOS PRO, ETHOS Plus, ETHOS Tech**

1. **Platform or Software Challenge?** Disconnect from vehicle, power off for at least 45 seconds and reboot the unit.
2. **Other Communication Issues?** Try second Data Cable. Verify the power LED on the Data Cable is illuminated which indicates the vehicle has 12 volt and ground at the correct pin locations (pin #4 is ground and pin #16 is 12 volt on standard 16-pin OBD-II style connectors).
3. **Coverage Verification?** Check the software version on the tool and refer to the Interactive Vehicle Application Guide to verify coverage support of vehicle and system.
4. **Unit is Locked Up or Will Not Power Down?** Press and hold the power button until unit powers down, then reboot.
5. **Correct Connection to Vehicle?** Verify Data Cable or vehicle-specific adapter being used match what is being requested by the software.

UPGRADE 17.2

The Most Powerful Diagnostics Today

For a complete run-down of available coverage, refer to the new Upgrade 17.2 Interactive Application Guide located at diagnostics.snapon.com/17.2

*Important Platform and Upgrade Reminder

VERDICT Scan Platform (EEMS326) does not include a meter

MICROSCAN III (EESC720)

already contains the ABS and enhanced engine codes, so an additional purchase of the upgrade (EESP717PRO) isn't necessary

Prices and availability subject to change without notice. List prices and weekly payments do not include Sales Tax
